Overview Supply of furniture to the reception and meeting areas

Newton Abbot based accountancy firm Darnells contacted Karris to design and supply a bespoke reception and source quality, modern furniture for their client area and meeting rooms. The design team paid particular attention to the interior structure, using glass, wood and highly polished aluminium to full effect.

The combination of colours and textures ties together modern furniture with the rustic and traditional look of Quay House, creating a very appealing space for both customers and staff.
