

ATASS Group, Exeter

Scope Interior design and furniture supply
Sector Commercial
Size 3,000 sq ft

Overview Interior design, space planning and furniture supply for ground floor west office

Following the successful completion of Oxygen House earlier this year, ATASS continue to expand and have recently relocated their Business Support department into additional office space. In an effort to distinguish the ground floor west wing as an individual area, Karris were briefed to create a 'wow' factor and provide something different to the existing offices.

Bold colours and high quality fabrics combine to create a vibrant atmosphere, whilst luminous acrylic storage tops and storage wall graphics add interest to this exciting new office.
