stones  
SOLICITORS LLP

Stones Solicitors hold a prominent position in the South West legal scene, and pride themselves on their exceptional customer service. To further enhance the experience of their customers, Stones decided to refurbish their existing premises at Southernhay Gardens in Exeter, to include a new reception, conference suite and client meeting rooms. A welcoming and relaxed reception area was essential to the success of this refurbishment, and the team at Karris used combined knowledge of design, products and materials to create an environment that not only meets, but exceeds the expectations of the partners and staff at Stones.
