

# Fairford Electronics, Lee Mill

**Scope** Refurbishment and furniture supply  
**Sector** Manufacturing  
**Size** 11,000 sq ft

**Overview** Conversion of former warehouse facility and furniture supply

To enable the expansion of South West based global electronics specialists, Fairford Electronics relocated from Kingsbridge to two large adjacent industrial units on the outskirts of Plymouth. They appointed Karris to completely redesign, refurbish, adapt and combine the two units to create their new headquarters.

Fairfords now have a new, modern, fully themed office and production facility to be proud of, both to work in and welcome visitors to.
